

IGOR SZUNIEWICZ

SOUND DESIGNER / AUDIO PROGRAMMER

Game sound designer and audio programmer with a classical piano background. I like making sounds that react to the player - spatial audio in VR, real-time ML tools, and plugins in C++/JUCE.

SKILLS

Sound design	advanced
Audio implementation	advanced
Spatial audio	intermediate
Adaptive music	intermediate
Music composition	advanced
Audio programming	intermediate
Programming	intermediate

TOOLKIT

Wwise · FMOD · Reaper · UE5 · Unity · Perforce · JUCE · Blender · GitHub · Python · C++ · C#

LANGUAGES

Polish	native
English	fluent
German	basic

INTERESTS

DSP & audio research

Javelin throw

Swimming

Gym & fitness

KEY ACHIEVEMENTS

Technical sound designer implementing audio directly in game engines and VR.

- Set up spatial audio for VR training so gunshots and voices behave like in a real building (Steam Audio).
- Built C++ audio in UE5 - footsteps that change with the surface, proximity triggers, configs designers can tweak without code.

Audio programmer building ML classifiers, plugins, and synthesis tools.

- Built a beatbox rhythm game with a custom KNN classifier (3 classes, 7 spectral features), all ML from scratch in C#/Unity - latency benchmark in progress.
- Built a VST3 sampler plugin with granular synthesis and TPT filters (C++/JUCE).

EXPERIENCE

Feb 2026 - Present

Technical Sound Designer (XR Labs, Belgium)

Making VR training scenarios sound believable for police, military, and customs (Unity + Steam Audio).

- Filling 3 facility maps with environmental audio - every room should tell you where you are.
- Designing Taser T10 audio from field recordings and layered samples.
- Tuning how sound travels through doors, walls, and different materials in Steam Audio.

PROJECTS

Shadow Frames TEAM 2025 - Sole audio designer, 200+ Wwise events, voice acting, UE5

Not Today, Darling! TEAM 2025 - Sole audio designer, MetaSounds, reactive vehicle audio, priority mixing

Transientica: AudioLab SOLO 2025 - Beatbox rhythm game, custom KNN classifier, C#/Unity

Ray Animation COLLAB 2024 - Original score composed and timed to a graduation animation in eight days

AudioQ SOLO 2024 - VST3 sampler plugin, C++/JUCE

Amorak SCHOOL 2024 - Independent sound redesign for student animation

EDUCATION

2023 - 2026

Bachelor - Game Sound Integration

Howest DAE, Belgium

Thesis: Generative AI for Real-Time Adaptive Game Audio

2019 - 2023

High School Diploma (STEM focus)

I LO Dwujęzyczne im. M. Kopernika, Kołobrzeg

2013 - 2019

Classical Piano & Music Theory

State Music School, Kołobrzeg
