SOUND DESIGNER · AUDIO PROGRAMMER

Igor Szuniewicz

Game sound designer and audio programmer with a classical piano background. I like making sounds that react to the player: spatial audio in VR, real-time ML tools, and plugins in C++/JUCE.

01 EXPERIENCE

Technical Sound Designer · XR Labs, Brussels

FEB 2026 - PRESENT

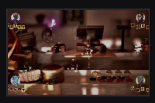

Making VR training scenarios sound believable for police, military, and customs (Unity + Steam Audio).

- Set up spatial audio so gunshots and voices behave like in a real building: occlusion, transmission, and room behaviour tuned per material.
- Filling three facility maps with environmental audio; every room should tell you where you are.
- Designing Taser T10 audio from field recordings and layered samples.
