

IGOR SZUNIEWICZ

TECHNICAL SOUND DESIGNER / AUDIO PROGRAMMER

I build audio that reacts to the player: spatial sound in VR, real-time ML tools and C++/JUCE plug-ins. Classically trained pianist.

SKILLS

Sound design
Audio implementation
Music composition
Spatial audio
Adaptive music
Audio programming

TOOLKIT

Audio and engines

Wwise, FMOD, MetaSounds
UE5, Unity, Steam Audio
REAPER, Pro Tools

Programming and workflow

C++, C#, Python, JUCE
Perforce, Git

LANGUAGES

Polish / native
English / fluent
German / basic

INTERESTS

DSP and audio research, javelin throw, swimming and gym.

01 EXPERIENCE & RESEARCH

2026 - PRESENT

Freelance Sound Designer - Games

Independent sound design and audio implementation for game projects.

FEB - JUN 2026, BELGIUM

Technical Sound Designer - XR Labs

Built audio for police, military and customs VR training in Unity. Tuned Steam Audio spatialisation in-headset so trainees could locate gunshots and hear obstruction. Built the weapon audio system and designed Taser T10 sounds from layered library recordings.

PUBLISHED 2026, HOWEST DAE

AI Audio Research - Bachelor thesis

Measured the delay from an in-game event to generated audio playback using an Unreal client, Python generation server, cache and synthesis fallback. Documented the results in a 68-page thesis.

02 SELECTED PROJECTS

Shadow Frames TEAM / 2025
Sole audio on a UE5 horror game: over 200 Wwise events, voice recording and a mix that reacts to enemy distance.

SIDAR NULL SOLO / In development
Horror prototype with an audio scanner that reveals the level. Game design, C++ and Wwise implementation.

Not Today, Darling! TEAM / 2025
MetaSounds kart engines and a priority mix for simultaneous collisions in a four-player racer.

Transientica SOLO / 2025 - present
Beatbox rhythm game with a custom KNN classifier written in C# and Unity to recognise each vocal hit live.

AudioQ SOLO / 2024
Granular VST3 sampler written in C++ and JUCE.

03 EDUCATION

Master - Sound Design / Starts September 2026
FH Joanneum, Graz, Austria

Bachelor - Game Sound Integration / 2023 - 2026
Howest DAE, Kortrijk, Belgium
Thesis: Generative AI for Real-Time Adaptive Game Audio

Classical Piano & Music Theory / 2013 - 2019
State Music School, Kołobrzeg, Poland
